# Y Officers Plan Year's Work

OLD AND NEW CABINET AND COMMISSION HAVE SUNDAY.

omore commission spent Sunday, a trip to Atlanta Wednesday where April 22, at Nesbit Woods mak-|she attended a banquet which was ing plans for next year. Miss Mary given at the Piedmont Flotel by Moss led a discussion on "A Sense the engraving company to the edof Values"; Ruth Vinson, Miriam iters of some of the publications it Lanier, and Margaret K. Smith is working on. Among those pres- Greene, freshman, in the inter-class made suggestions on "How to ent were the editors of the annuals." Spend the Summer Profitably," of Georgia Tech, Agnes Scott, and and Margaret K. Smith also made G. S. C. W., as well as the outa talk on "The New Student Gov- going and incoming staff of the Aternment." Many splendid plans lanta publishers. were made for next year.

The new Y. W. C. A. officers at the retreat were Ruth Vinson, president; Jane Cassels, first vicepresident; Margaret Edwards, second vice-president; Viola James, secretary; and Elizabeth Pollard, treasurer; the executives were Mary Dan Ingram, Caroline Ridley, Dorothy Allen, Georgellen Walker and Louise Donehoo; the cabinet members were Dorothy Andrews, Viola Carruth, Mary Louise Dunn, Mary Favor, Billie Jennings, Helen Johnson, Lillian Jordan, Eloise Kaufmen, Marjorie Beauty," was presented Monday Persons, Kathleen Roberts, Wilda night. The story was adapted Slappey, Agnes Smith, Rosalie from the age-old story, "The Sutton, Dot Thomas, Grace Webb, Sleeping Beauty," and made modand Bobby Wylie.

#### **Book of Clippings** Given To Library

In addition to some 25,000 books, the library also possesses various collections of interesting records, old newspapers, and other documents.

A valuable collection of clippings has also been placed in the Moss, Miss Mary Dan Ingrain, library. Miss Mary Burns has had charge of the collection until recently. The clippings date from Ganamede; Evelyn Turner, Hero, 1924 to the present time. There is Donald Kent, Virginia Tanner; a large scrap-book which contains Witch, New Sheppard; Old clippings from April 10, 1932 to May 15, 1933.

While the clippings will be interesting to the students in general, they are infinitely more valuable to the library and to the college as a matter of permanent record of everything that has appeared in Georgia newspapers concerning the Atlanta recently who were selected tude are extended to him for it. #### District Contests Held At G. S. C. W

The sixth district held its annual nigh school meet at G. S. C.W: April 19-20.

Beginning Thursday night, there were three one-act plays presented. The winning one, "Who's Who in the Family," was staged by the group from Sandersville.

Friday morning the piano contest followed the recitation, declamation, and ready writing ones.

A meeting of the high school superintendents, principals, and teachers took place Friday at which time they elected officers for the coming year and made recommendations, and resolutions. Later in the afternoon the debates were held after which followed the presentation of the medals and cups, and final announcements.

The track meet took place at Cochran and Wadley. Tennis was

# President-elect Visits College

CHANCELLOR PHILIP WELTNER INTRODUCES GUY WELLS, OF STATES. BORO.

Mr. Guy H. Wells, presidentelect of G. S. C. W., spoke briefly at the chapel program on Friday morning, April 20, at which time he received a great ovation from the students. Mrs. Wells, his little daughter, and Chancellor Phillips Weltner accompanied him to Milledgeville.

"I consider it a great honor to be the head of such an institution," said Mr. Wells. "It is my desire to perform my duties in such a way that the school will be benefitted.

"It is the little things that make life worth living. A personal touch to things means so much more than people realize. Let us give that personal touch to all of our actions."

Mr. Wells stated, "I appreciate Myra Jerkins, Thomaston, was fun and humor; life would be stale elected president of the sophomore without either. I like to mix with commission for 1934-35 at a my students and get really ac-

#### Time Changed For Radio Program

Monday, April 16, Dr. Webber began the Health, Happiness and Success Hour with a talk of the "Good Old Days." Following this, Miss Barlice Saltsman gave a reading. The musical part of the program was two groups of selections, with Miss Lillian Jordan as soloist, and Miss Viola Carruth as pianist.

Of special notice, is the change of the day and the hour of the Health, Happiness and Success Hour, beginning Wednesday, April 25. The hour has been changed to 3 o'clock. This week Dr. Webber will feature the subject "Contributions from the South," as this program will be given the day before Memorial Day. After Dr. Webber's talk, Miss Betty Watt and Miss Evelyn Oral Reading, first, Marian Turner, with Miss Evelyn Groover as accompanist, will present several southern melody numbers.

Typists-Margaret Harvin, Mary Lance,

Welcome, President Wells

Last week we were honored by a visit of our president-elect, Guy Wells, accompanied by Chancellor Weltner. We were very happy to have the opportunity to meet him and welcome him on the campus.

We agree with the favorable comment about Mr. Wells, in the Macon Telegraph editorial reprinted in the Colonnade last week. After seeing and hearing the man we are doubly sure that the Board of Regents has made a wise choice.

May we take this opportunity to repeat our welcome, and to reiterate our intention of giving the new president the most loyal support during his administration.

#### Why Not a High School Day?

It has long been the custom in many girls colleges to have sometime each spring that is generally known as "high school day"; that is, a day when high school seniors all over the state are invited to visit the campus as guests of the college, to meet the faculty and students, and to become acquainted with the school.

This plan has the advantage, in the first place, of attracting a larger number of students to the college. It is good publicity. Then, too, it gives high school graduates a chance to become familiar with various colleges from first-hand experience, and they are able to make a more satisfactory choice as to where to continue their studies. This experience might even influence students to seek a college education who had not pre-

viously planned to do so. Would it not be possible for G. S. C. W. to celebrate a "high school day" each year? There are undoubtedly many girls in the state who are graduating from high school this year and who have not decided where to attend college next year. They would appreciate an invitation to visit the campus and could be made to greatly enjoy the visit. Why not give them a chance to get acquainted with us?

#### Courtesy?

Even though the college is not troubled with a great amount of discourtesy in the halls, the fact that there is at least a little thoughtlessness on the part of some of the students between classes might be mentioned.

If you have a scrap of paper which you think must be discarded, wait until you get to a wastepaper basket to throw it away instead of pitching it in the corner of the halls. Some may think it doesn't matter where waste paper is thrown because the janitor always sweeps it up. Bear in mind, students, that the janitor doesn't always come through the halls and sweep up the tiny bits of paper right after you throw them down. So why give the hall an untidy appearance?

Another point to stress in connection with courtesy in the halls in the fact that some students have been seen to be in such a hurry between classes that they disregard the other person altogether. This happens in the congested places just above and below the

Of course, this is not done by every student, but even one person can cause a great amount of disturbance in "hall traffic." What about a smooth running traffic in the halls?

Rev. A. G. Harris (This article completes the series of sketches of Milledgeville pastors).

A beloved pastor in Milledgeville is Dr. Albert Grady Harris of the Presbyterian church. He is a leader both in intellectual and spiritual thought. Those characteristics which make him a splendid leader, friend, preacher, and adviser are deep spiritual insight, friendliness, sympathetic understanding, personal magnetism, and clarity of vision.

Dr. Harris shows a sympathetic understanding for the young as well as for the old. He lives up to the high ideals that he emphasizes in his touching sermons. Rev. Harris is able easily to influence other by the splendid example of character that he himself displays. He proves to be one of the best friends a college girl can have.

#### Patter

Among the new spring novels are "Morning Comes Early" by Kathleen Coyle, "Tender is the Night" by F. Scott Fitzgerald, and "Singer Passes" by Maud

"Dr. Martino and Other Stories" is a collection of thirteen short stories by Mississippian William Faulkner.

"The Nine Taylors" by Dorothy Savers is called a "best" mystery by those who

Franklin D. Roosevelt's interpretation of his revolution is "On Our Way." For accurate knowledge of the gold standard and all that it involves go to Frank A. Vanderlip's "Tomorrow's Money."

"The Smith of Smiths" by Hesgeth s about Sidney Smith, wit and cleric, and has this comment from a reviewer: "Johnson had his Boswell, Butler had his Jones, and Shaw his Shaw. There are Johnsonians. Butlerites, and Shavians who feel a mystic congeniality when they meet their kind. There should be Smithites, and there undoubtedly will be. For "The Smith of Smiths" is a book of books in which an irrestible subject has found the perfectly at-

tuned biographer."

THAT POEM ABOUT A TREE A thing vexatious grows to me, That famous poem on a tree. A poem little children speak, And gives me jitters for a week. A poem sweet young girls recite, And I can't sleep a wink that night, A poem soulfully sung By tenors whom I wish were hung Upon the air, o'er land and sea, The thing goes on eternally. There are ten million fools like me Tired of that poem on a tree. -Olin Miller.

#### Someone Interested

"It's awfully nice not to have to wear your rubbers unless you want to," said a college freshman away from home for the first

"By the time you have been away from home four years," said a senior, "you'll wish you had somebody around who was enough interested in you to care whether you wore vour rubbers."

She had discovered one of the great and lasting values of family life . . . someone interested in us.

-Lita Banc.

Now the time has come when we can show that we are glad that someone is interested. Parents' Day, instituted by a lovely thought, will become a tradition. Proud mothers and fathers, friends and acquaintances will come and go and realize that perhaps after all, we care. In the rush and hurry we forget to thank them. We feel that it is silly and sentimental to let them know, but now on this first Parents' Day is the time to bring them here, and thank them. Just how you can do it, you alone know. The graciousness of the college will be the background, and you will show them what it means to you for someone to be really interested.

Some of the users of the library books are like picnickers who leave so much disorder in the park that other people cannot enjoy it. Many hundreds of the books in the school library have been hopelessly underlined. It was a great help perhaps to those who marked them. This is an admirable method of study, but to use books that have already been marked is very annoying and

To a careless few, marked books may mean labor saved if they are willing to find only what somebody else has already seen. Books worn by long hours of careful study are pleasant to look upon. Books abused by forgetful users speak somehow of the desecration fo the medium of higher learning. For aesthetic satisfaction, for those that will come later, leave the books as they are 

#### Dr. Fred Allison

When the Chemistry club presented the first Herty Medal to Dr. Dred Allison of Alabama Polytechnic Institute, it honored a man who is near the top of the scale of outstanding research chemists.

Three years ago Dr. Allison was studying various elements by the magneto-optic method when he secured unexpected results which led him to suspect the existence of a new isotope of hydrogen which is twice as heavy as ordinary hydrogen. He named this new thing "deuterium."

"Deuterium" forms a heavy hydrogen compound, deuterium oxide-heavy water. Heavy water has been found to kill a number of organisms. Pathologists at Manhattan's Memorial Hospital hoped heavy water might prove fatal to cancer cells, but were disappointed to find the cells vigorous after prolonged immersion in it.

SCOOPS

The list of femmes that attended the Georgia Spring dances grew greatly during the past week, so I can add a few more names to the all-too-small list. Viola Carruth represented Ennis with Edith Taylor. Sue Alston represented Terrel proper, Weldon Seals did the Bell honors with a walk-away. She was in the lead-out with the treasure of the Pan-Hellenic! Bell Annex wasn't representedless, but had one of the Pridgen twins . . . Lillian . . . to keep up her standard. ("Her" refers to the dormitory).

I notice in an exchange that an anti-pun society has been organized by students at the Stevens Institute of Technology to deal with the advocates of the "lowest form of humor!" My, my, how some of the students of this campus would suffer if we were punnerless! 'Punmv word. Tanner would die!

The latest in faculty tactics. One professor has announced a test every day of the remaining quarter. Yes. Doesn't it all sound harsh? Anyway, it's only a protective measure . . . like Carl Vinson's new navy bill? The professor won't give a test every day, but he can be saved the goans of "Oh, but we have a test in ——— (von will know the subjects will be varied) THAT day." So now the professor is saved, so the faculty members will hear. "But we have a test in ———— (I won't commit myself)."

Congratulations to Voncile Garrison who can take three tests in one week and make 100 on every

## Dr. M. S. Pittman To Head School

EDUCATOR AC CEPTS PRESIDENCY OF THE SOUTH GEORGIA TEACHERS COLLEGE

Chancellor Philip Weltner, of the Georgia University System, has announced that Dr. M. S. Pittman, noted educator of Ymilanti, Mich., has accepted the presidency of South Georgia Teachers' college,

Dr. Pittman, the chancellor said will take up his new duties July 1 succeeding Dr. Guy H. Wells, who has been elected president of Georgia State College for Women.

The changes in the Statesboro and Milledgeville institutions were made recently by the board of regents of the Georgia University System, and are effective this sum-

Dr. Pittman was born in Embry, Miss., April 12, 1882. He is a graduate of Bellefontaine Academy, Millsaps College, University of Oregon and Columbia University, of New York City, receiving his Ph. D. degree from the

#### Louisa Echols Wins Fashion Recognition

Miss Louisa Echols, daughter of Dr. and Mrs. G. A. Echols, and student at G. S. C. W., has received honorable mention in the Young American Designers Fashion contest recently sponsored by Marshall Field and Company of

There were thousands of entries from 252 colleges and universities all over the country, and Miss Echols is to be congratulated on having achieved this distinction.

#### Debate

(Continued from first page) urned out constructive citizens.

The negative side brought out the ollowing points in support of their

That education of present day American colleges does not stimulate the American youth to constructive citizenship because

- 1. Individuals who graduate from these colleges are incapable of taking their place in society.
- than foster interest in politics.
- 3. That they do not teach the truth in history in many instances.
- 4. That they educate for war rather than peace; nationalism rather than internationalism.
- 5. That they turn out selfish individuals.
- 6. That American college education has gone into the phase of mass production with the result that more people are being trained for jobs than can be disposed of.
- 7. That methods used in teaching are based on stereotyped memory work.
- 8. That unprejudiced race and sex relations are not stressed in the curriculum.

The affirmative side attempted to prove that the curriculum of colleges and universities has played a very definite role in the stimulation of constructive world citzenship. Other points which this side upheld

1. Evtra-curricula activities on our American college campuses have contributed largely to a promotion of international cooperation and understanding among students.

2. A sympathetic world-wide interest in human relationships has been aroused in our American youth by our national and internatonal educational organization.

3. The field of higher education including this curriculum, these extra-currcula activities, the national and international educational organization has reached as much of the general mass possible in the present day conditions.

Both sides brought out some excellent points but after due consideration on the part of the judges, Miss Helen Green, Father James McMainara, and Dr. Thomas Meadows, the decision was awarded the negative side.

Dr. Charles A. Herty, a medal is presented to the chemist in the Southeastern United States who has contributed the most in the field of chemisry. This is the second year of the award.

Invitations have been mailed week. Further announcements will

## The Globe Trotters

Most of the news this week has been over our heads, but the part under our feets has been sufficient for us to tell you a few things, so here goes . .

Roosevelt got back from his vacation, announcing that he was rested, and now he was a "tough guy." He told Congress, who congregated in front of the Capitol, and went en masse to meet him at the station, that they could stay in Washington as long as they wanted, but at the same time it was evident 2. That these colleges kill rather that he means for only the most important issues to be brought up before the present session of Con-

> And before we leave Washington . . . The Russian ambassador and his wife entertained at a most elaborate "hourse-warming" last week at the Russian Embassy, in use now for the first time in over fifteen years.

"Peace and disaster" said the munition makers in 1864, and they are still surviving. Senator Nye has called for an investigation in which he hopes to show the vast profit made on government ammunition, and also to prove there is an international arrangement between them. He wants to bring this bill before the next Congress, and hopes to have heavy taxes or government control imposed on them.

Down in the lonely little village of Barbizon, Leon Trotsky revealed to reporters who discovered his hiding place that he is quietly planning a world revolution. For a long time, the Russian, exiled by Stalin, managed to conceal his identity, but a beard was not enough to cover the familiar and unusual Trotsky.

At last, Insull is on his way home. Taken at Istambul he is arriving at Boston, May 9, aboard the Exilana.

Mussolini announced a 6 per cent cut for government officials and 20 per cent for cabinet members. Landlords were ordered to slash rents 12 per cent, and general merchandise 10 per cent. He does have his day in Italy!

Then there is trouble between Germany and the Vatican. Germans accuse the Catholic Clergy of tampering with the labor problems. Seems to be about all,

Until next week, THE GLOBE TROTTERS.
